

Optima™

Engineered Optimization

A bolt-on one-piece tire assembly made to eliminate expensive trip and press-on charges.

Optima is ideal for industries including:

- Material Handling
- Transportation & Logistics
- Engineered Wheels
- Heavy Equipment

Why compromise when you can optimize?

Eliminate expensive trip and press-on charges and the need to purchase replacement hubs. Stellana's Optima™ tire systems incorporate a heavy-duty cast iron hub, which speeds installation time and reduces overall downtime. When comparing like tire sizes, The Optima Tire System improves load carrying capacity by over 60% on average or an increase of 2,600 lbs. or more. Keep your fleet up and running to improve your bottom line with this optimized tire system.

Sizes Available

13 x 5.5 x 8

13 x 5.5 x 9.5

13.5 x 6 x 10.5

Material Options

Lmax™

High speed, high load

Gmax™

Exceptional cut and tear resistance

max90™

Perfect blend of performance and price position

Vmax™

Sets the standard for toughness

Key Features

- Reduce downtime
- Eliminate press-on charges
- Reduce heat buildup
- Increase load capacity

Load Capacity Comparison Comparative Loads at 9 mph

When comparing like tire sizes, The Optima Tire System improves load carrying capacity by over 60% on average or an increase of 2,600 lbs. or more.

What to expect from a Stellana wheel

Stellana produces wheels and tires with the highest standard of craftsmanship. Our products offer the lowest cost of ownership and longest service life found in our industry. You will never find debonding in our products or any deviation from wheel to wheel because we use the strictest standards to measure every aspect of production.
